

Invest a little time now to achieve a safer workforce! Take advantage of PIA's free webinar series and get all your training squared away. OSHA requires employers to provide safety training to any employee exposed to a safety hazard and you may be subject to citation or possible civil or criminal litigation for failing to do so.

Why is it a good idea to participate in PIA's free Safety Webinars?

- Satisfies OSHA mandated employee safety training
- Can help your employees work safer
- Can reduce your exposure to Workers' Compensation losses
- Helps keep you out of trouble with OSHA, NYS DEC and other regulatory agencies

REMEMBER: All employees exposed to a workplace hazard are required to participate in a safety training program that addresses the hazard. It's not just a good idea, it's the law!

Review the training topics listed below and take a look at the schedule for July that appears on the back of this flyer. Printing Industries Alliance continues to offer safety training on OSHA mandated topics to members, **FREE**, on an individual webinar or on-site basis. Contact Jerry Banks at PIA at (800) 777-4742 to discuss your training needs.

Hazard Communication: Our HazCom webinar provides a comprehensive and up-to-date presentation that addresses the concerns that come with hazardous chemicals in the workplace, including the Globally Harmonized System revisions.

Emergency Action Plan (Emergency Evacuation and Fire Protection): In the event of an emergency all employees need to know how to safely evacuate the facility. The program will discuss proper evacuation methods, will explain fire prevention techniques and review procedures.

Ergonomics: Workers in the printing industry are often exposed to risk factors such as lifting heavy items, bending, reaching overhead, pushing and pulling heavy loads, working in awkward body postures and performing the same or similar tasks repetitively. Musculoskeletal Disorders (MSDs) are work related injuries caused by these risk factors. Such work-related injuries are often avoidable. Ergonomics: fitting a job to a person, will help guide in preventing such injury.

Control of Hazardous Energy (Lockout/Tagout): This program teaches recommended and mandated techniques to be used in isolating machinery from its energy source in order to protect employees from accidental start up of machinery while repair, servicing and maintenance work is being conducted.

Back Injury Prevention: Ergonomic injuries are abundant in the printing industry with back injuries leading the charge. Employers who implement proper lifting techniques in the workplace will help reduce these concerns. This training program will guide your work force in protecting themselves from such injuries through the development of these recommended safe lifting techniques.

Walking-Working Surfaces: *"Look out behind you! Someone just set down a pallet!"* One of the most common causes of injuries in printing is to workers who suffer injuries from tripping over pallets. There are many other causes why workers fall. Learn more about the second leading cause of injuries in industry as we guide you through the *do's and don'ts* to help protect workers from a nasty fall, or worse.

TO REGISTER: Use the form on the back to register for the dates and times that work best for you and your staff. Questions? Contact Kim Tuzzo at (800) 777-4742 or ktuzzo@pialliance.org for assistance.

PIA SCHEDULED SAFETY WEBINARS

JULY 2018 -- REGISTRATION FORM

Please check off the training webinar(s) you wish to attend. Webinars are free for PIA members.

Hazard Communication

Thursday, July 12th 9:00 am 3:00 pm
Thursday, July 19th 9:00 am 3:00 pm
Tuesday, July 24th 9:00 am 3:00 pm

Emergency Action Plan

Wednesday, July 11th 3:00 pm
Monday, July 23rd 9:00 am 3:00 pm

Control of Hazardous Energy (Lockout/Tagout)

Friday, July 13th 9:00 am 3:00 pm
Friday, July 20th 9:00 am 3:00 pm
Wednesday, July 25th 9:00 am 3:00 pm

Ergonomics

Monday, July 16th 9:00 am 3:00 pm
Thursday, July 26th 9:00 am 3:00 pm

Back Injury Protection

Tuesday, July 17th 9:00 am 3:00 pm
Monday, July 30th 9:00 am 3:00 pm

Walking-Working Surfaces

Wednesday, July 18th 3:00 pm
Tuesday, July 31st 9:00 am 3:00 pm

NAME (Person who will coordinate webinar training at your location)

COMPANY

EMAIL

PHONE

All participants will receive information and forms to be utilized to document your training efforts and assistance in developing the "company-specific" portion of the training.

RETURN TO: PRINTING INDUSTRIES ALLIANCE by fax to (716) 691-4249 or scan and email to info@PIAlliance.org.
