Payroll Protection Program Forgiveness Update

Navigating the Paperwork Nightmare Webinar

Wednesday, October 7, 2020 | 2:00 PM

What's the latest and how do we get ready to file our forgiveness application?

The federal government's Paycheck Protection Program (PPP) has brought much needed financial resources to companies impacted by the COVID-19 pandemic. Along with these benefits have come very complicated formulas and forms for companies wishing to apply for loan forgiveness. The Paycheck Protection Program Flexibility Act (PPPFA) has added some clarity and flexibility to the program but has created a whole new set of questions!

Join us on Wednesday, October 7th at 2:00 PM as Harry Marino, President of the Marino Advisory Group rejoins us to share new details and answers key questions in preparing for success in maximizing PPP loan forgiveness, including:

* What happens if I conclude before 24 weeks?
* What documentation is required for best practices?
* How do I take advantage of "safe harbor" provisions for FTE/wage restoration?
* and more!

Submit your questions in advance at registration and bring your live questions as well. Mark your calendar for more financial management programs with Harry Marino!
