

Strategic Risk Management Fundamentals

An 8-Part GKG University Course Provided By Gilroy Kernan & Gilroy, Inc.

Course Overview

As an industry leader in the field of Safety and Risk Management, our team is continuously approached by companies and Risk Management professionals who are eager to learn more about what we do and how we do it.

As a firm that values teaching and continuous improvement, we're always eager and willing to share our knowledge ...and that's how this course was born!

What You'll Gain By Completing This Course

We have three goals for all participants. Leave with:

1. an increased familiarity with the **fundamentals** of strategic Risk Management;
2. the skills and ability to create an effective **action plan** for your own organization; and
3. a robust **network** of Risk Management and Safety resources.

You will leave this course with a comprehensive understanding of the various elements of "Safety" and "Risk Management" as well as the foundational approach/philosophy that lends itself to every Risk Management program regardless of size, cost, industry, etc.

Industry Expertise

This course is lead by GKG's Larry Gilroy (President), David Lyman (Risk Manager), and Peter Miller (Director of Client Strategy - Risk Management). Additional GKG team members and guest speakers will participate throughout the course to share their expertise with the group!
