

# HOLISTIC ENERGY MANAGEMENT SOLUTIONS

## ABOUT US

APPI Energy, a division of Environ, provides businesses a comprehensive way to manage energy market risk and minimize budgetary exposure. Through our procurement services, we negotiate with suppliers to ensure you are provided with ideal contract terms to fit your needs. As part of Environ, APPI now has enhanced capabilities to provide a wide variety of energy services. We empower commercial, industrial, and non-profit entities to become more sustainable by improving building energy efficiency, facilitating clean energy procurement, increasing resilience, complying with regulations, and meeting ESG commitments.

## WHY APPI

Our team meets your organization at its current stage in energy management and sustainability needs to help you reach your desired destination. Our flexible approach allows us to connect with you at various points along your energy journey spanning electricity procurement through decarbonization. APPI Energy works with only the most trusted, heavily-vetted suppliers making recommendations that are aligned to your needs and goals. Drawing on extensive energy expertise spanning diverse industry sectors such as healthcare, hospitality, higher education, manufacturing, food processing, real estate, industrial and government projects, our dedicated experts understand the unique challenges associated with energy costs, greenhouse gas emissions, and efficiency within each specific industry. We are here as a true extension of your team.

## OUR SERVICES

Cost-effective energy solutions, including energy as a service (EaaS), to meet your high-priority energy needs:

### RESILIENCY

- Distributed Generation:  
Fuel Solar/PV
- Combined Heat and Power (CHP) Systems
- Microgrids
- Back-up Generation
- Curtailment Planning

### COMPLIANCE

- Federal Requirements
- State and Local Laws

### PROCUREMENT

- Electricity
- Natural Gas
- Fuel Oil
- Renewables
- Renewable Energy Certificates
- Carbon Offsets

### SUSTAINABILITY

- Greenhouse Gas (GHG) Inventories
- Climate Planning
- Program Development

### REPORTING

- Utility Database Development
- Utility Data Automation
- Bespoke Energy Analytics
- Energy & Sustainability Dashboards

### EFFICIENCY

- Energy Audits
- Project Identification
- Project Management
- Utility Incentive Management

Connect with our team to explore options for your organization. Contact us today for an energy assessment.
